Second Thoughts:

Today was a much better day. There were a couple of entries trying to pick the upsets today like what happened yesterday. Unfortunately there was just one when BC beat CAN. If CAN had beat BC (like they were supposed to) there would have been 11 people with a perfect day. That would have been worse for me but better for everybody else then the 7 way tie on Saturday. As it is 4 people correctly went against the grain on that game and it resulted in two perfect days (and I think two first time winners as well). Congratulations on the day goes to Jason Startup and Brittany Horbul for your perfect days. Almost halfway through it is still Gylie Wilcox leading the weekly standings but now tied with Don Catalano.

There are 26 entries this year. That means the total pot is \$520 this final year.

The total available every day is $\$31.20 * 6 = \187.20

- First overall will get \$130.00
- Second overall will get \$78.00
- Third overall will get \$52.00
- Fourth overall will get \$41.60
- Fifth overall will get \$31.20
